ALPHA 2002 INTERFACE SYSTEM

McCard Limited - Signal Hill Calt.

Dept Parts-800-243-0303 X2425 3234

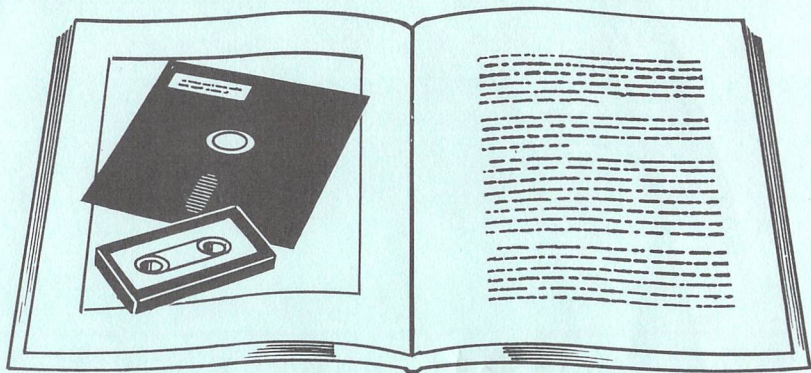

The Alpha 2002 custom interface system allows you to use your ROYAL Alpha 2002 electronic typewriter with almost any personal computer to produce letter-quality copy without the additional expense of a separate printer.

No wiring, tools or modifications to your typewriter are necessary. The Alpha 2002 interface system quickly and easily plugs into your typewriter and computer to allow you to start using your typewriter as a computer printer in minutes.

The Standard Interface System retails for \$299.95 (USA only).

The Memory Interface System incorporates a 4K memory (or two pages of text) which speeds up the transmission of data so that you can input into your computer at the same time that your typewriter is printing out previous information. The Memory Interface System retails for \$349.95 (USA only).

SuperWord*

SuperWord is sensational word processing software for the VIC-20 and Commodore 64K.

SuperWord is designed to be used with the ROYAL Alpha 2002 electronic typewriter and will provide you with crisp, clean letter-quality copy.

SuperWord allows you to boldface, underscore and center separately or simultaneously. Margins and page length can be set within SuperWord.

SuperWord allows "Full Screen Editing" where you can move within your document. You have the ability to correct, add or delete characters, words and phrases.

Simple menu options make word processing with SuperWord quick and easy.

SuperWord, bound with complete documentation, is available on 5 $\frac{1}{4}$ inch floppy SuperDisk or cassette tape.

NOTE:

Some word processing software programs do not work with the ROYAL Alpha 2002. Therefore, Royal Business Machines, Inc. recommends the use of SuperWord.
